

Raja Umer Saghir

Software Engineer

PROFESSIONAL PROFILE

As a Software Engineer with few years of experience in the IT field, my specialisation lies in full-stack web development, particularly in TypeScript, React, Next, Node, Git, Cloud, and related technologies. I am adept at solving complex problems and excel as a collaborative team player, backed by strong social and communication skills. My technical expertise spans responsive UI development, API development and integration, optimisation, CI/CD, unit testing. Proficiency in DevOps and agile practices is another facet of my skill set.
