Raja Umer Saghir

Software Developer

PROFESSIONAL PROFILE

As a web developer with more than three years of experience, I specialise in building modern and intuitive user interfaces using React, HTML5, CSS3, JavaScript and related technologies. With a strong understanding of front-end development principles, I have collaborated with cross-functional teams to create responsive web applications that deliver exceptional user experiences. My expertise includes implementing state management, integrating APIs, optimising performance, testing and ensuring cross-browser compatibility. I am passionate about staying up to date with the latest industry trends and best practices to continuously enhance my skills and contribute to innovative projects.
