EDUCATION

2010 - 2012

BLEKINGE INSTITUTE OF
TECHNOLOGY

KARLSKRONA, SWEDEN

MSc Electrical Engineering
(Radio Communication)

TRAININGS

2/2020 - 5/2020

SOFTWARE DEVELOPMENT
ACADEMY (KTH & NOVARE)
LUND, SWEDEN

System and Web Development

12/2018 - 5/2019

FOO CODING
MALMÖ, SWEDEN

Full Stack Web Development

PROFILE

As an experienced Full Stack Engineer, I specialize in developing scalable web applications leveraging core technologies such as JavaScript, TypeScript, React.js, Node.js, Express.js, and AWS. Known for problem-solving skills and a collaborative approach, I thrive in cloud-based and agile environments. My expertise spans responsive UI development, API development, database integration, and CI/CD processes, enabling me to deliver innovative and effective software solutions that meet diverse client needs.

WORK EXPERIENCE

Paramountric AB (Malmö)

11/2023 - PRESENT

Software Developer

- **Product Development:** Developing Next.js collaboration platform, designed to integrate real-time features such as live editing and instant messaging using TypeScript, and LiveBlocks.
- **Database Management:** Spearheaded the integration of database systems using Server Actions, Prisma, PostgreSQL, and Supabase, enhancing data reliability and access speeds.
- **Automation and Cloud Deployment:** Enhanced development workflows through the implementation of CI/CD pipelines using GitHub Actions; optimized AWS cloud infrastructure to improve deployment efficiency and system resilience.
- **Security Implementation:** Developed robust authentication and authorization modules using Next Auth and Clerk APIs, ensuring high-level security standards and compliance with data protection.

TeCodea (UpWork)

Freelance Software Developer

11/2022 - 10/2023

- **Application Development:** Created and deployed React and Next.js applications focusing on optimizing both server-side and client-side rendering to maximize performance and user experience.
- **State Management:** Implemented state management strategies using React Hooks, and queries, Context API, middleware, and Redux to manage complex data flows and UI states efficiently.
- **Cloud Services Integration:** Utilized Firestore for scalable database solutions and managed Google Cloud Storage for efficient image and data storage, ensuring high availability and disaster recovery capabilities.
- **Client Collaboration:** Worked closely with clients to understand their needs and deliver tailored solutions that align with their business goals and user demands.

LANGUAGES AND FRAMEWORKS

- HTML5, CSS3, Bootstrap, Tailwind
- JavaScript, TypeScript, React.js
- Node.js, Express, Next.js, SQL
- Wordpress, Shopify

DATABASES

- PostgreSQL, MySQL, MongoDB

CLOUD

- AWS, GCP, Firebase, Supabase
- Heroku, Netlify, Vercel

TOOLS

- Git, GitHub, GitLab, Unix, Shell
- NPM, PNPM, Yarn, Webpack
- Jira, Miro, Slack, Trello, VS Code
- MVC, ORM, CSR, SSR, SSG
- Redux, JEST, Husky, ESLint
- RESTful, GraphQL, WebSockets
- Docker, Kubernetes, JWT, OAuth
- Figma, Adobe, Canva, Material UI

OTHER SKILLS

- Team Work
- Problem solving
- Communication
- Agile, Scrum
- Engineering, Math

LANGUAGES

- English (Advanced)
- Swedish (Intermediate)

WORK EXPERIENCE

PaperTale Technology AB (Malmö)

2/2021 - 9/2022

Software Engineer

- **UI/UX Development:** Engineered responsive user interfaces using React, optimizing them for various devices and browsers to enhance user engagement and satisfaction.
- **API Development:** Developed and maintained scalable RESTful APIs using Node.js and Express, facilitating seamless data interchange between frontend and backend systems.
- **Cloud Management:** Administered AWS environments using Docker containers, orchestrating services to ensure efficient load balancing and minimal downtime.
- **Quality Assurance:** Conducted rigorous unit and A/B testing across different browsers and devices, ensuring robust application performance and identifying areas for improvement.

Outso AB (Malmö)

6/2014 - 9/2019

Engineer Technical Support and Web Admin

- **E-commerce Solutions:** Development and maintenance of WordPress and Shopify platforms, implementing features that enhanced shopping experiences and streamlined checkout processes.
- **Payment Integration:** Integrated and managed Stripe for secure online transactions, enhancing customer trust and business credibility.
- **Web Administration:** Managed domain registration, email setup, and web hosting, ensuring optimal site performance and reliability.
- **Stakeholder Management:** Coordinated with suppliers, managed inventory, and facilitated logistics to support smooth business operations and timely delivery of services.
